

NHS Greater Glasgow and Clyde

2.3 Prescribing Interface Subcommittee (PIC) of ADTC: Terms of Reference

Role

The Prescribing Interface Subcommittee of the Area Drug and Therapeutics Committee (ADTC) coordinates the formal management of prescribing issues between primary care and the acute setting including the review, approval and collation of Shared Care Agreements. The overall aim is to ensure there is clarity and consistency on the utilisation of medicines and associated responsibilities in NHS Greater Glasgow and Clyde.

Terms of Reference

The Prescribing Interface Subcommittee will:

- Manage processes to ensure that any interface agreements are standardised
- Review, approve and collate formal Shared Care Agreements
